[More jobs from this company](#)

- **Growing professional services firm**
- **Join a small cross functional, efficient project team to deliver a critical transformation program**
- **Fantastic office space in Alexandria**

Benefits

- You'll join a new cross functional team delivering a large data project
- Join a highly regarded, family owned business with offices around the country
- Play a pivotal role in the technical direction of the project
- A competitive salary package on offer with training and technical development opportunities

About the Company

A family owned professional services firm, this business has offices around Australia with a growing team of specialist professionals working on a range of business critical issues. Over the years, they've become a well renowned specialist in their field and routinely receive accolades for their work with clients.

About the role

As the Database Architect, you will be the front line of all database and data strategies across the business, you'll be charged with designing and implementing data solutions as well as helping to maintain and upgrade existing technology from Databases to Business Intelligence and Reporting. Naturally inquisitive, you'll find solutions to problems that haven't arisen yet and thrive in an environment that allows you to have a major impact on future technology roadmaps. You'll be comfortable using legacy technology but always planning a way to implement newer, more efficient solutions to meet internal needs.

Key technical skills include:

- Extensive experience in a DBA or similar role
- Expert level SQL expertise
- A desire to learn and grow with enterprise cloud solutions such as AWS or Azure
- Exposure to or an interest in Business Intelligence, ideally with PowerBI
- Significant database security understanding
- Drive best practice within a non technical workforce
- A strong understanding of financials modules
- A desire to expand your skillset in Data within areas such as data lakes or big data

Culture

- A small, high performing team working with an award winning employer
- Work life balance is viewed as essential to the success of the business, you'll be given flexibility whilst ensuring business requirements are met
- This business prides themselves on hiring, retaining and developing their staff
- You'll be hired to grow into the data SME across the company
- Learn new skills whilst making use of your extensive experience in a legacy environment
